

C580

MULTIPURPOSE SPECIMEN CONTAINERS

Made of high density polyethylene

These disposable containers are ideal for collection, transport and storage of fluids, powders, solids, pathology specimens and hazardous samples. Tight-fitting lids prevent leaks and odors.

Made of high density polyethylene, these containers are inert to most chemicals including formaldehyde, weak acids, and all bases. Resistant to freezing and boiling. Stackable and almost indestructible. Containers are easy to write on with either pen or pencil for positive identification. Ungraduated. Sturdy enough for reuse.

Cat. #	Capacity (ml/oz)	Opening (mm)	Height (mm)	Qty/Cs
C580-3	300/10	111	45	100
C580-4	500/17	111	75	100
C580-5	1000/34	111	140	100

C581

TAMPERPROOF SPECIMEN CONTAINERS

Made of high density polyethylene

These disposable containers are ideal for collection, transport and storage of fluids, powders, solids, pathology specimens and hazardous samples. Tight-fitting lids prevent leaks and odors. They incorporate a tamperproof lid which is opened by first removing tab on side of lid, then by lifting the cover. They resist temperatures up to 100 °C. The two larger sizes are supplied with a plastic handle for easy carrying.

The 2350 and 5000 ml sizes are provided with a plastic handle for easy carrying and a tamperproof lid for added security.

Cat. #	Capacity (ml/oz)	Opening (mm)	Height (mm)	Qty/Cs
C581-300	300/10	111	45	100
C581-500	500/17	111	75	100
C581-1L	1000/34	111	140	100
C581-2L	2350/80	150	168	25
C581-5L	5000/170	215	190	10
